01. CUT out the base, then the tomb (and the tombs door!) and then the characters. Keep the FOLD+GLUE Tabs attached to the characters when you cut them out. And DONT cut on the dotted lines, those are for folding :P

02. FOLD Along the dotted lines once on the base so it can stand with the green grass as the floor. Then make 4 folds on the Tomb to pop it out.

03. GLUE or use double sided tape on the FOLD + GLUE boxes below the characters and put them on the grass area. Then attach the tomb on to the base as its noted.
